

Special Thanks to GTBR Contractor Safety Survey Participants

The GTBR Contractor Safety Survey, coordinated through Industrial Safety Training Council, is conducted each year to collect data on the contractor accident experience and safety performance for the Golden Triangle area. Information specific to each OSHA recordable accident is analyzed to identify target areas where the greatest impact can be made to eliminate accidents. Survey results may be viewed at <http://www.gtbr.org/pdf/2002-package.pdf>. Thanks to those contract companies who participated in the 2002 GTBR Contractor Safety Survey:

A&B Builders, Ltd
Aggreko, LLC
